Mohit Gupta

Web Developer

Portfolio: mohitguptaa.vercel.app
github.com/mohittguptaa
linkedin.com/in/mohit-gupta-b93805257

As a passionate web developer, I thrive on crafting engaging, user-friendly websites and applications. I enjoy diving into complex coding challenges, building responsive designs, and optimizing performance to create seamless user experiences. Always eager to learn and adapt, I stay updated with the latest technologies and trends, constantly refining my skills to tackle new and exciting projects.

SKILLS

Strongest Area	MERN Stack
Programmign Languages	Javascript , python
Tools and Languages	Git, React.js , Node.js , Express.js
Databases	MongoDB , AppWrite
Platforms	Vercel , Netlify , Heroku
Communication	English , Hindi

PROJECTS

Hospital Management System

June 2024

- Developed a comprehensive Hospital Management System using the MERN stack (MongoDB, Express.js, React, Node.js), enhancing operational efficiency and patient care.
- Implemented a secure, role-based access control system to ensure data privacy and integrity for administrators and patients.
- Designed and integrated a robust database schema in MongoDB to efficiently manage patient records, appointments, billing, and inventory.
- Created a user-friendly, responsive front-end interface with React, ensuring seamless navigation and accessibility across various devices.
- Optimized server-side performance using Node.js and Express.js, resulting in reduced load times and improved system reliability.

Technologies: React.js, Node.js, Express.js, MongoDB

cryptoX

Feb 2024

- Developed a seamless crypto tracking app providing real-time data on various cryptocurrencies and their exchange rates.
- Designed and implemented an intuitive interface that facilitates informed decision-making for users.

Technologies: React.js, CoinGecko API, Auth0, Chakra UI

Sage Soul

Dec 2023

- Collected and processed data from various ancient Ayurvedic texts using NLP and Data Processing techniques.
- Developed an AI Similarity Search Algorithm to find the best matching prescription according to the patient's symptoms directly from the texts.
- Conducted web-scraping of medicinal data and symptoms for diagnostic and prescription purposes.

Technologies: React.js ,Python, NLP, Web Scraping

Portfolio Website

Nov 2023

- Developed and deployed a fully responsive portfolio website using React, ensuring optimal performance and user experience across various devices and screen sizes.
- Utilized React's component-based architecture to create reusable UI components, improving development efficiency and maintaining a clean, organized codebase.
- Implemented React Router for smooth navigation and dynamic content rendering, enhancing user interaction and site navigation.
- Optimized website performance through code splitting, lazy loading, and other best practices, resulting in faster load times and a smoother user experience.

Technologies: React.js ,Python, NLP, Web Scraping

EDUCATION

Bachelor of Tecnology in CSE

Bikaner Technical University, Rajasthan

2021 — 2025

ACHIVEMENTS

Finalist in Smart India Hackthon (National)

Dec 2023

- Smart India Hackathon 2023 Grand Finalist, showcasing exceptional problem-solving and innovative skills. Collaborated in a dynamic team environment, addressing real-world challenges with a forward-thinking approach , Working on the ayurvedic medicine suggestor.
